"The 10'8"C was designed to net a finished thickness of 3 5/8" to 4" or more. I recommend the 10'8"Y for 3 1/2" and thinner. The 10'8"C features a flat deck with a fuller rail and wider nose and tail to accommodate classic Longboards, Pigs, and high performance Longboards. Despite the thickness, it is designed to accommodate broad rocker changes and will foil out nicely at the suggested thickness with more than enough room to accommodate a variety of bottom contours."
