Natural Rocker: 5 11/16" N 2 1/16" T

"About 3/16" thinner than the 7'0" A, this can net a 6'11" bottom length. The Natural Rocker is good for vee in the tail and contoured bottom designs. The Hawaii Rocker can be used in high performance styles. I personally like the 7'2" EA bottom curve glued-up with this one for a flatter deck design.
